www.samiabouzid.com | sbouzid22@gmail.com | Philadelphia, PA

EXPERIENCE

Freelance Audio Producer, Sound Designer & Editor

December 2018 – Present

- Mixer/Sound Designer: Mixed and sound designed nonfiction and fiction podcasts for companies including Adonde Media, Pushkin Industries, LWC Studios, and Falling Tree.
- Producer: Pitched, reported, and produced stories for the Duolingo podcasts, TED Climate, and Lost Women of Science.
- Editor: Edited scripts for the Duolingo French Podcast. Worked closely with writers and editorial team to refine pitches and scripts.

Freelance Script Writer & Editor

November 2018 – Present

Wrote and edited scripts for the YouTube channels [SciShow](#) and [Be Smart](#) on topics in science including space, physics, psychology, and current events.

Researcher & Production Assistant | Richard Lewis Media Group

June 2018 – August 2019 | Watertown, MA

Provided research for linear and interactive media being developed for science and cultural museums. Worked with content creators to identify storylines. Wrote text for exhibits.

Digital Production Assistant, PBS NOVA

Jan. 2018 – Aug. 2018 | Boston, MA

Produced videos for the YouTube channel [What the Physics?!](#) Researched and wrote scripts on topics such as fundamental physics and cosmology. Filmed, edited, and created animations.

Fulbright Fellow, The Fulbright Association

Aug. 2012 – June 2013 | Santander, Spain

Prepared middle and high school students for UN-style debates on themes of world migration and the Millennium Development Goals. Published a bilingual zine, *Designs & Detours*, of nine stories about the immigrant experience in Northern Spain.

SPEAKING ENGAGEMENTS

- **Concordia University** (2022): Led an intro to multimedia workshop for students in Concordia's Projected Futures summer program.
- **Rutgers University, Department of Physics & Astronomy** (2018): Gave a talk about my career to Rutgers faculty and alumni at an annual department gathering
- **AstroSantander** (2012): Gave two astronomy presentations to local amateur astronomers.
